Company PRODUCTION CENTER

COMPANY

Founded in 2014,Lumiwise lighting focus on high-quality LED linear lighting. We focus on the R&D, production, and sales of LED strips, LED neon, and led profile linear light.

Over approximately 10 years, we've established a stable R&D system, stringent quality control procedures, a comprehensive production supply chain, excellent customer service, and optimal product solutions. This has enabled us to maintain stable relationships with clients in more than 90 countries and regions worldwide, including dominance in the European market.

In the future,Lumiwise Lighting will continue to prioritize quality and R&D in LED lighting, aiming to be the most highly-regarded supplier in the LED field.

MANUFACTURE

Manufacturing Capacity

LUMIWISE operates a two-floor production base in Shenzhen, covering an area of over 5,000 square meters and employing more than 100 staff. The facility houses more than 10 high-speed SMT machines, 20 die-bonding COB machines, 7 automatic extrusion lines, and 6 luminaire production lines. This enables a complete production process for LED strips, including high-speed SMT, automatic welding, and a full range of water-resistant options. Our average daily production capacity is up to 25,000+ meters for LED strips, 5,000+ meters for Neon Flex, and 2,000+ meters for COB strips.

Additionally, LUMIWISE has modernized its factory to achieve a complete production process for linear luminaires, including precision machining, automatic assembly, color spraying, and free customization. Our average monthly production capacity reaches up to 100,000+ strips, ensuring high-quality, cost-effective products with quick delivery for our customers.

- 8 COB LED strip production workshop

- 9 COB LED chip bonding process
- 10 SMD assembly workshop

LABORATORY

The LUMIWISE laboratory spans an area of over 200 square meters and is equipped with more than 18 sets of specialized testing equipment. These are divided into different zones: safety, EMC, photoelectric, IP water resistance, aging, and product reliability. Our inspections cover a broad range of products, including LED strips, neon strips, linear luminaires, power supplies, and related accessories. The inspection standards encompass safety, EMC, performance, and product reliability. Testing reports are documented throughout the product design evaluation and type approval phases to ensure consistent product quality.

CERTIFICATE SYSTEM

Lumiwise certified under the ISO 9001:2015 Quality Management System. All of our products have successfully passed tests conducted by third-party authoritative labs and have earned various quality certifications, including CB, CE, REACH, ROHS, ETL, SGS, TUV, and LM-80, as required by different countries and regions.

WHY LUMIWISE?

EFFICIENT & PROFESSIONAL SERVICES

Customized spec support, label service. Customer first, 12 hours response policy. Technical, Sales, Marketing team service.

RELIABLE LED INDUSTRY EXPERIENCE

10 years specializing in R&D, production and sales of high-quality LED strips and linear light. 200+ companies from 90+ countries worked well with us. Long-term supplier declaration to maintain friendly relations of cooperation.

WIDE PRODUCT OPTIONS

SMD3528, SMD5050, SMD2835, SMD2010, SMD2216, SMD3014, SMD2110, COB, Silicone Neon, PU Neon, Flex Wall Washer etc. High CRI, High Efficiency, Super Long Constant Current, Multi-Color, Ultra Narrow, S Shape etc. IP20, IP52, IP65, IP67, IP68 options for indoor and outdoor application.

STRONG PRODUCTION CAPACITY

10 High-speed SMT machines and applied welding lines, 20 die-bonding COB machine lines, 7 automatic extrusion lines and 6 automatic luminaire production lines, 10 aging test line and 5 packaging lines. 300+ well-trained workers. Average daily production capacity up to 25,000+ meters for led strips, 5000+ meters for Neon flex, and 2000+ meters for COB strips, 7 days can be shipped out of 95% standard items.

OEM&ODM

Different OEM&ODM service to help wholesaler, retailer or project orders. Wide color options, based on the ERP or ANSI[CIE] standard. Smaller CCT tolerance. One-Bin supplied, 2-3-5 SDCM. High color consistency. Customized wattage per meter and lumen per meter, Customized product from Circuit, structure, Prototype to bulk production.

WORLDWIDE CERTIFICATES

Our products have successfully passed tests conducted by third-party authoritative labs and have earned various quality certifications such as UL, ETL, CB, CE, UKCA, BIS, REACH, and RoHS.

R&D TEAM

Our R&D team, made up of over 10 engineers, is always developing new and trending LED products to help our customers tap into emerging markets. This ensures that we all stay up-to-date with market trends and avoid becoming obsolete.

STRICT QUALITY CONTROL

Operations accredited to ISO 9001:2015. 5 Steps for quality control. IQC, IPQC, OQC, OE and QM. All LEDs are LM-80 available, packing in Cu lead Frame +99.99% Gold wire.

CORE VALUE CUSTOMER SUPPORT

We are pleased to prioritize updates on our latest research and product promotions. We offer competitive pricing to maintain the core value of customer purchases within Lumiwise's system. From the perspective of long-term cooperation, credit terms can be negotiated to your satisfaction. We also keep a reserve stock of raw materials to minimize lead time.

COMFORTING AFTER-SALES

We offer a warranty of up to 3-5 years. Any issues with our product are resolved within 7 days. Your dedicated account manager is always here, ready to assist you with any questions or concerns. We regularly conduct customer satisfaction surveys to enhance the customer experience. Achieving a relaxed and enjoyable cooperation is our goal.

LUMINENA 60 PRO

LED Profile Light

NEW

Continuous light-line system.

Single Luminaires and Light-line systems

Single Luminaire and light line systems lighting solution when projecting the interior of an office or any public building. It is high-quality housing in a powder coated finish makes it bold and stylish luminaires, Rigid Line 60 is versatile for different installations.

Features

- .High performance 150lm/W for energy saving,
- .continous row Connection without light leakage
- .Fast Installation and easy maintenance
- .Various optics make it possible for opal,prismatic ,
- .up&down light possibilty
- .EN12464-1 Compliant.
- .High Visual Comfort and Uniform Light
- .Dot free illumination and no visual screws end cap

LUMINENA 60 PRO NEW
LED Profile Light

Seamless connection and continuous line.

Thanks to the innovative rollable diffuser and seamless connection design ,RIGID LINE 60 can be continuous line without any light leakage.

Conical prismatic diffuser
For standard-compliant workplace

Opal diffuser
For communication area

Indirect light

Enhance uniformity and decrease glare.

Lockable connector

Fast and seamless connection without tool needed.

Through-wiring arrangement

Rotatable bracket

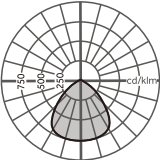

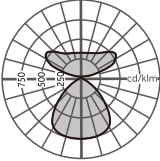

Easily assemble and disassemble the gear tray.

LUMINENA 60 PRO

LED Profile Light

NEW

Discreet and timeless pendant light with direct or direct/indirect light emission.
Aluminum profile powder-coated in white and black.
Highly efficient lighting system with optimal light control.
Available in anti-glare or efficiency-optimized versions.
Excellent for office areas (UGR ≤ 19) with Microprismatic diffuser
Available in individual light colors as well as freely adjustable light colors,
making them ideal for modern interior lighting design.

Features& Benefits

- High efficacy of more than 140LM/W.
- Seamless connection without light leakage.
- Fast installation and easy maintenance.
- EN12464-1 compliant.
- Shining free and uniform light.
- Dot free illumination and screwless endcap.
